## SOLICITORS

Providing a fresh approach to legal services

Birketts is a UK Top 50 law firm providing support to clients across Chelmsford and beyond. Our depth of experience in private client matters means you can rely on us for practical and experienced legal advice.

### Wills

We advise on lifetime gifts, estate plans and taxation issues relating to inter-generational transfer strategies. Our team gives specialist tax and succession planning advice to individuals, families, businesses and landowners. We are able to assist with a wide range of clients' circumstances including challenging or complex family relationships, involving privately owned businesses, agricultural or farming interests and large property portfolios.

### Probate

Specialist knowledge and sensitivity are needed for the efficient administration of the estates of deceased individuals. We advise a broad range of clients on their duties and obligations as trustees, executors or beneficiaries and assist individuals and institutions, whether as personal representatives or beneficiaries, with the practical arrangements that are necessary. Our clients include trustees (both individuals and professionals), executors and administrators, beneficiaries and banks.

### Trusts

There could be many reasons why you might want to create a trust. For example, you might want to look after assets for your children whilst they are too young to manage them themselves, or because you want to make a gift to someone without losing control over how the asset is managed. Where appropriate we can assist you with amending the terms of an existing trust whether it is to change the trustees, pass trust assets to beneficiaries or even terminate the trust completely.
